

OASN Achievement Summary Report

Q3 2017 (Jul-Sep)

The objective of this report is to show how average OASN facility performance results compare to benchmarks. Where average performance exceeds benchmarks, performance is marked as "achievement." Currently, this report is used for evaluation purposes only, but it may be adapted to facilitate performance-based recognition and incentive programs.

OASN Achievement benchmarks are set by the OASN Quality Committee for results from the 2017 performance. Benchmarks are based on CMS Nursing Home Compare medians, CASPER Q4 2016 averages, and 2016 historical OASN results. The purpose of the benchmarks is to offer points of comparison for quality improvement purposes. Measures used in pay-for-performance programs associated with OASN contracts are indicated with footnotes. This report shows Q2 2017 performance only.

Short-Term Stay Measures	Utilization				Patient Safety			Vaccination		Domain
	30 Day Unplanned Readmissions	Unplanned Observation Stay	All-Cause ER Visits	30 Day Discharge to Community	New/Worsening Pressure Ulcers	Improvement in Function	Appropriate Resident Antipsychotic	Flu	Pneumonia	
Q3 2017 OASN Median	12.37	0.00	1.35	60.14	0.30	71.91	0.62	92.93	97.63	Measure
Achievement Benchmark	10.80	0.80	3.06	57.73	1.00	65.96	2.30	85.48	88.89	OASN Median
Average Q3 2017 Performance	11.12	0.29	1.91	60.52	0.84	70.17	1.13	89.75	93.62	Benchmark

										Flag if Achieve

Explanation
Each column shows average OASN performance on measures compared to benchmarks. Where OASN performance is better than the achievement benchmark, that measure is marked with a golden flag.

- Improvement typically means lower numbers (maximum performance=0), except for the Discharge to Community, Improvement in Function, and Vaccination measures
- Unplanned Observation Stay and All-Cause ER Visits are expressed as rates per 1000 residents. All other measures are expressed as percentages

Long-Term Care Measures	Utilization			Patient Safety				Vaccination	
	30 Day Unplanned Readmissions	Unplanned Observation Stay	All-Cause ER Visits	Falls with Major Injury	Pressure Ulcers	Urinary Tract Infections	Appropriate Resident Antipsychotic	Flu	Pneumonia
Q3 2017 OASN Median	0.00	0.00	0.38	3.67	2.97	2.70	13.93	98.29	99.62
Achievement Benchmark	10.80	0.33	1.14	3.40	5.40	3.60	16.10	97.17	98.22
Average Q3 2017 Performance	6.49	0.11	0.55	4.45	3.84	5.32	13.56	96.70	97.60
